Sean,

Yesterday, after assisting TCEQ with scribe issues, I demobilized from site. Today I loaded the most up to date lab results, added all of the pH, Chlorine, and Temperature data from the Field Data Sheets, and updated the Custom Data views in the database. I also scanned copies of the field data sheets and put them on the share drive, they're located under EPA deliverables in the Corpus Christi ER folder. Let me know if you have any questions or concerns.
